

Revolutionizing Digital Transformation for ISPs & Telecom Operators

www.iconwavetech.com

About Us

At IconWave Technologies, we are at the forefront of digital transformation, delivering next-generation software solutions that empower Internet Service Providers (ISPs), telecom operators, and MVNOs. With over a decade of industry expertise, 550+ successful deployments across 15 countries, and a subscriber base exceeding 5 million users, we are redefining network management, customer experience, and operational efficiency

Our Vision

To enable seamless, scalable, and intelligent digital infrastructure, equipping businesses with the power of automation, analytics, and AI-driven decision-making.

Our Mission

To revolutionize the ISP and telecom industry by providing robust, intuitive, and scalable software solutions that enhance service delivery, operational efficiency, and customer experience.

Our Values

Trust And Mutual Respect

Transparency and Communication

Participation and Empowerment

Reward and Recognition

Professionalism and Integrity

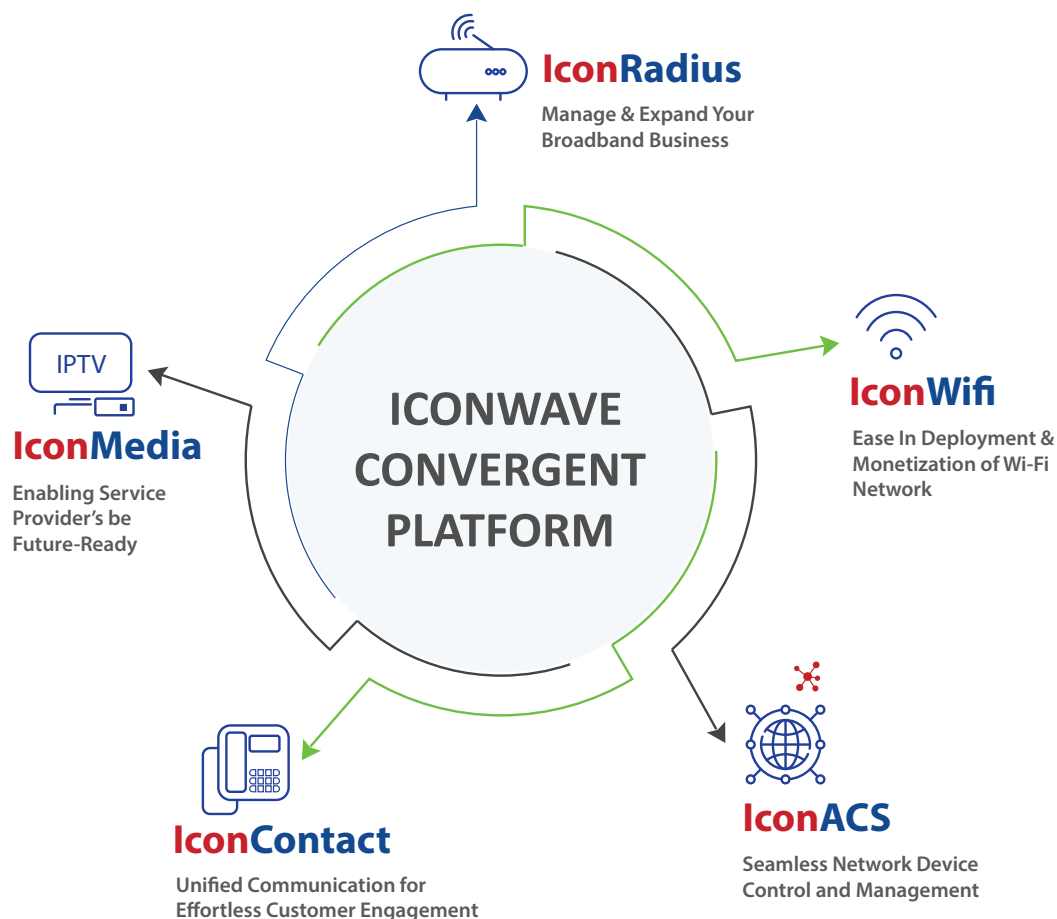

Quality and Service Excellence

Our Convergent Platform

In a world where connectivity is king, ISPs need more than just isolated tools—they need a fully integrated, AI-driven ecosystem that delivers automation, efficiency, and revenue growth. Iconwave's Convergent Solution seamlessly integrates IconRadius, IconACS, IconWiFi, and IconMedia, providing ISPs with a unified, intelligent platform to manage every aspect of their operations.

Our Achievements

10+ years of innovation

Innovation in ISP and telecom software, delivering automation, AI-driven optimization, and scalable network management.

550+ deployments

Our solutions power seamless connectivity, optimizing networks and enhancing experiences for millions of end-users worldwide.

15+ countries

Our solutions enhance connectivity and efficiency, delivering seamless experiences to millions of end-users worldwide.

Major Projects

We have successfully implemented large-scale projects for ISPs and telecom operators across various regions. Our notable projects include:

- » Deployment of IconRadius for a leading ISP handling millions of active users.
- » Implementation of IconACS for a national telecom provider to streamline device management.
- » Successful rollout of IconWiFi in public hotspots and enterprise networks, enhancing connectivity experiences.
- » Integration of AI-powered NMS for predictive network monitoring and optimization.

Why Choose IconWave?

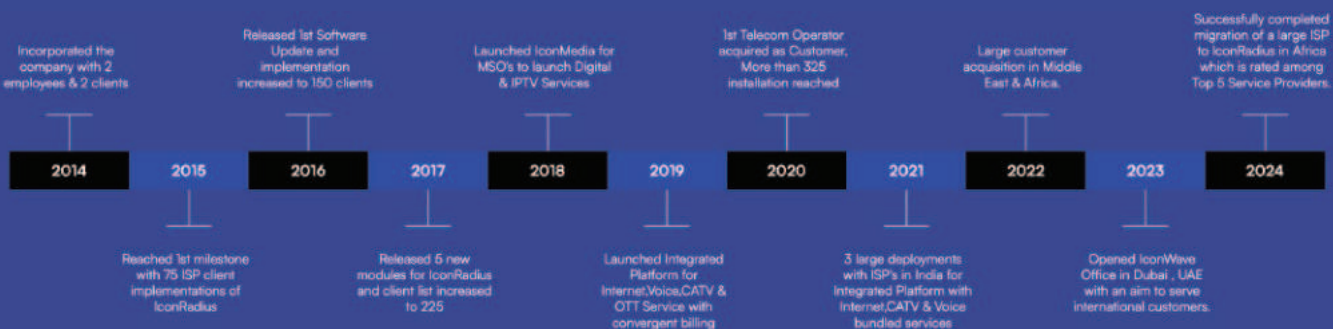

- ✓ **Proven Industry Experience:** 10+ years of delivering excellence in ISP and telecom technology.
- ✓ **Scalable and Secure Solutions:** Designed to handle growing business needs without compromising security.
- ✓ **Customer-Centric Approach:** Customizable solutions tailored to specific ISP and telecom requirements.
- ✓ **End-to-End Automation:** Reducing manual intervention, increasing efficiency, and enhancing service quality.
- ✓ **Seamless Integrations:** Compatible with leading industry standards and third-party systems.

Scalable, Secure, and Built for Hyper-Growth

From startups to large-scale ISPs, our solutions grow with your business—delivering lightning-fast authentication, seamless billing, and self-optimizing networks.

Our Journey

From a humble beginning to a globally recognized ISP technology provider, IconWave Technologies has evolved through continuous innovation and customer-centric solutions. With a dedicated team of experts and an unwavering commitment to excellence, we continue to shape the future of digital connectivity.

Let's Build the Future of Connectivity Together

Join hands with IconWave Technologies and take your ISP or telecom business to new heights with intelligent, future-ready digital solutions.

Rapid Deployment & Transition Management

Quick Setup

- 01 IconRadius allows ISPs to set up services swiftly with minimal technical intervention, ensuring faster market entry.

Training Resources

- 02 Comprehensive training material is provided to reduce the learning curve, helping staff adapt to the new system quickly.

Seamless Migration

- 03 The platform supports smooth data migration processes, reducing potential downtimes during system transitions for ISPs.

Guided Implementation

- 04 Dedicated support teams assist ISPs with tailored deployment strategies, ensuring effective resource allocation and usage.

Scalable Architecture

- 05 Easily adapts to growing subscriber bases without service disruption.

Downtime Minimization

- 06 Ensures smooth transition with real-time data synchronization

Cloud & In Premise Options

- 07 IconRadius offers both cloud-based and on-premise deployment options, allowing ISPs and telecom operators to choose the best fit for their business model, infrastructure, and security requirements.

Integration Support

- 08 Compatible with third-party CRM, billing, and network systems.
